

XDC 2025 - X.Org Developer's Conference

Monday 29 September 2025 - Wednesday 01 October 2025

Scientific Programme

Talk (full slot)

Technical presentation in the main conference track, with around 35 minutes of presentation plus 10 minutes of Q&A. This can be anything: a work-in-progress talk, a proposal for change, analysis of trends, etc.

Talk (half slot)

Technical presentation in the main conference track, with around 15 minutes of presentation and 5 minutes of Q&A. This can be anything: a work-in-progress talk, a proposal for change, analysis of trends, etc.

Demo

10 minutes, we'll try to schedule them early and have a demo place throughout the conference.

Lightning Talk

5 minutes tops. Scheduled throughout the conference in the main track. Any hallway track discussions summaries have priority.

Workshop, Meeting or Hacking Session

Discussion topic for a smaller group. Ideally, two people submit a proposal, one to lead the discussion and make sure it stays on track, a second person to keep notes. Please mention relevant talk submissions for the main track that should kick off the discussion. These talks will be scheduled early in the conference program. A summary of the discussion will be presented at the end of the conference in a lightning talk.
